[FROM OUR SUNDAY'S EDITION.]

NEW YORK.

NEW YORK, November 7.—Shortly after twelve o'clock this noon a fight took place between Bernard Metalens, who keeps a lodging house at No. 36 Spring street, and several of his lodgers. Metalens was stabbed in the abdomen by a ruffian named John Stanley. Another man named John Vickers, who was also engaged in the fight, was stabbed by Stanley in the leg and arm. Metalens' wound is of a serious nature, and it is feared that he will die. Vickers' wounds are serious but not dangerous. Stanley was arrested by an officer, and the wounded men removed to Bellevieu Hospital.

The committee of the Union League to investigate the naturalization frauds in the city, is composed of seven gentlemen, as follows: W. E. Dodge, Horace Greeley, Moses H. Grinnell, Isaac Sherman, Isaac H. Bailey, Marshall O. Roberts and John H. White.

An error in the Kings county returns has been corrected, and the Republicans now have two assemblymen, instead of one, among the delegation.

The report that Wormald and O'Baldwin fought in Putnam county, yesterday, is false. O'Baldwin has been here some time, and Wormald is under bonds in Boston not to leave the State for pugilistic purposes.

On Thursday evening Frederick Bond, a native of Austria, aged twenty-four years, married a young lady of this city, of excellent family, great beauty and high character. This husband of a day spent the night in a cell. He confessed that he was formerly a confidential clerk to Bronson Bros, and had forged checks against them. On being arraigned, he freely confessed his guilt, and stated that he had spent $280 for passage tickets for self and wife, by the California steamer sailing next Monday. The rest of the money had been spent for jewelry.

A telegram from Washington, to the effect that the Secretary of the Treasury had decided that he has a right to issue $44,000,000 of legal tenders, making a maximum circulation of $400,000,000, had a magic influence on Wall street this morning, and the gloom and depression gave way to cheerfulness and buoyancy. There was a sharp rebound in value from the extreme low prices of yesterday, and a great rush to buy.

Upon inquiry at the sub-treasury, we learned that Mr. McCulloch had written a letter to Mr. Van Dyke, in which he regrets the money pressure, but has a desire to interfere before speculators in Wall street in the event of a panic extending outside or the national credit suffering therefrom. He would feel constrained to relieve matters by reissuing some of the greenbacks withdrawn from circulation but not cancelled. Mr. Van Dyke says if the speculators expect him to run up a large balance here to relieve them, they will be disappointed, but if there is any run on the Treasury with three per cent. certificates or matured compound notes than greenbacks would likely be reissued to a certain extent. The Secretary farther says in his letter he will not sell any more gold or bonds at present. Also that the announcement of these facts tend to restore confidence.

This puts a different face on the matter, and shows the greenbacks are only to be issued in a certain emergency. When this becomes known it will put a damper on speculation for rise, and there was a general decline from the highest point.

The *Commercial Advertiser* says it is useless to talk about ousting Mr. Hoffman from the Gubernatorial chair, and trusts that the committees appointed to inquire into the illegal voting will give their time to that particular branch of the subject, and ignore the question of contesting.

NEW ORLEANS.

NEW ORLEANS, November 7.—All the troops sent to reinforce Gen. Rousseau, during the excitement previous to the election, have been returned to their command.

The *Republican* has a leader defending Gen. Rousseau from the attacks of the Radical press North. It says his position during the recent past has been a most difficult one, and knowing as we know what were his views, his wishes and the means at his disposal to enforce those views and wishes, we propose to do a gallant soldier the justice of placing him correctly before the world. Gen. Rousseau, recently from civil life, was well known as a decided Democrat, and it is the part of justice we render him to say that he disavowed with promptitude any partisan bias in the administration of his command when violence and riot threatened its worst consummation. The troops at his command were a mere handful. For a request dispatched from Franklin and Opelousas he responded by an order directing troops immediately to those points; but before they could move, the disorders of the city increased to a degree that not a musket could be spared. Feeling his weakness, he telegraphed the Secretary of War, earnestly requesting more troops to be immediately sent him. The Secretary ordered Gen. Gillem to dispatch at once all the troops that could be spared from Mississippi. Through the leaders of the different parties he made constant efforts to quiet club and faction. Justice to him, therefore, requires us to say to our friends that he was earnest, diligent and true in his endeavor to protect life and prevent riot.

WASHINGTON.

WASHINGTON, November 7.—Although the Secretary of the Treasury believes he has power to reissue notes redeemed but not cancelled, it is not determined what he will do, as this will depend upon circumstances; and according to what is believed here of an improved condition of the market, it may not necessarily resort to that measure in order to afford relief.

Brevet Major Gen. J. T. Carroll, by direction of the Secretary of War, is ordered to report to Gen. Hancock, commanding the military division of the Atlantic.

Gen. Kilpatrick paid his respects to President Johnson to day.

Gen. Canby also had an interview.

Fractional currency printed for the week, $630,000. Shipped, $467,995. National Bank currency in circulation, $299,935,875.

Brevet Brig. Gen. Horace Brooks, Colonel of the 4th U. S. Artillery, now in command of Fort McHenry, Baltimore, is next in rank to Gen. Canby, and therefore succeeds him in command of the department at Washington.

FOREIGN.

LONDON, November 7.—The case of Miss Brecker, who appeared before a registration board some time since and claimed the right to vote in the coming election and was refused by the registrars, has been taken before the courts for adjudication. This movement was made in behalf of the women of the district to establish a precedent for female suffrage. The case was argued at great length in the court of common pleas before a full bench, Sir G. Boswell presiding, Mr. Coolridge supporting the claim and Mr. Melist opposing. There is considerable anxiety to learn the decision of the court which will be rendered Monday.

LIVERPOOL, November 7.—The bark Kate Dorton, Capt. Slocum, of St. Johns, N. B., from Liverpool to Bombay, was burned at sea. The Captain, first mate and thirteen of the crew had arrived at St. Helena, but the fate of the rest of the crew is unknown.

—There are 1500 omnibuses and 5000 cabs in London.

SOUTH CAROLINA.

CHARLESTON November 7.—Returns from the interior show that the Republican majority in the State will be largely reduced. Reed and Simpson (Democrats) are certainly elected to Congress. The First District is in doubt, with a probability of the re-election of Whitmore (Republican).

PENNSYLVANIA.

HARRISBURG, November 7.—Gen. Grant arrived here to-day and was presented to a large assemblage, but merely bowed his acknowledgment of the cheers that greeted his appearance. He left for Washington at 11:30.

PHILADELPHIA, November 7—The Bulletin table makes Grant's majority in Pennsylvania 28,397.

FLORIDA.

TALLAHASSEE, November 7.—Two thousand stand of State arms, in transit by railroad from Jacksonville to this place, were seized by a party of unknown persons last night, near Madison. A train with a detachment of soldiers left here for the place of the robbery at four o'clock this morning.

A second dispatch states that from the best accounts received, the parties who destroyed the State arms on the railroad, last night, must have forced open the cars at Madison, where they broke open the cases of rifles and destroyed and distributed them along the track for several miles. They also destroyed the ammunition. The arms cost the State $20,000.

Hamilton has been re-nominated for Congress by the Republicans. The Legislature is still in session, but will probably adjourn to-day.

W. W. Saunders, colored, is out as an independent candidate for Congress.

KANSAS.

LEAVENWORTH, November 7.—Quite a sensation was caused here last evening by the fulfillment of a pledge made by Senator Pomeroy before the election that if Leavenworth gave a Republican majority he would walk bareheaded through the streets of this city. He was followed by an immense crowd composed of tanners in procession with torches and transparencies, and citizens of all political opinions, who crowded the streets along the line of procession to witness the novel spectacle of our Senator trudging bareheaded through the streets to the music of a band. In view of the fact that every one was surprised at the result of the election in this county, the Republicans are making the occasion one of great jollification.

THE NEWS.

—Fears are entertained by the Democrats of Nashville that Brownlow will refuse certificates of election to both Sheafe and Leftwich.

—It is rumored that Gen. Grant will return to Washington for a short time, and then go to Galena and remain all winter, until the beginning of March, to get rid of the importunities of office-seekers.

—A Lexington, Ky., dispatch of the 6th inst., says: Considerable excitement prevails in this city to-night. The Radicals have bonfires burning and are firing anvils over the result of the election. A torchlight procession is also a part of the programme.

—The President of the Union Pacific Railroad Company having filed with the Secretary of the Interior the required affidavits showing the completion of a section of twenty miles extending to the nine hundredth mile post, the Secretary has directed the government commissioners to examine and report on it.

—A Nashville dispatch of the 6th says: There is terrible ferment among the corporation carpet-baggers about Judge Shackleford's action enjoining the bogus Mayor Alden and several members of the City Council from receiving salary and holding office, owing to frauds in their election and non-eligibility.

—From Washington on the 6th we learn that is again said that a speedy solution of the internal revenue troubles may be expected, and that Secretary McCulloch and Commissioner Rollins will agree in a day or two on the names to fill the vacancies in supervisorships. We shall see.

—The Supreme Court of the District of Columbia finally disposed of the Surratt case, on Friday last, by dismissing the appeal taken by the District Attorney, and virtually affirming the decision of Judge Wylie in the Criminal Court. Altogether, this specimen of Radical hate and vengeance has been a rather costly affair to the people of the United States.

—The United States District Judge of North Carolina, recently decided that real estate could not be set aside for the temporary support of a bankrupt, under the provisions of the act relating to exemptions; but that money might be so appropriated, in case, where the "articles and necessaries" specially designated in the act did not amount to the specified sum of $500; and if necessary to take land for this purpose, it must be advertised and sold at public auction and turned into cash.

—A special dispatch from Washington, of the 6th instant, says: A delegation of New York politicians are here seeking to effect the removal of Secretary McCulloch, which gave rise to the rumor of his resignation, and although they profess to be sanguine of success, there is reason to believe that President Johnson has given them no encouragement whatever. McCulloch expresses his willingness to retire whenever the President gives the slightest intimation that he desires a change at the head of the Treasury Department.

—The Secretary of the Treasury has decided that he has the power to reissue any legal tender notes that may have been redeemed but not canceled, providing that the amount outstanding does not exceed four hundred millions of dollars. This will obviate the necessity of any further sale of bonds or gold by the Treasury, and enable the Secretary to afford a substantial relief to the money market. Although opposed to the further issue of currency, he feels gratified in resorting to any legitimate means to relieve the present critical condition of financial affairs.

—The Washington correspondent of the Louisville *Journal* telegraphing on the 6th inst. says: A letter was received today from Gen. Grant, declining a public reception on his return here. He says he appreciates the patriotic motives of his friends in tendering him the compliment of a reception, but prefers to come quietly, without any public demonstration. He fixes no time for his return, but is expected Sunday next. Gen. Dent, of Grant's staff, proposed to some of the parties getting up the reception to wait for Grant's return and then tender him their congratulations on a given day, which he had no doubt he would consent to. It is thought that this programme will be adopted.

—A London dispatch of the 6th inst., says: The *Times* of to-day has an editorial on the result of the Alabama negotiations which, it infers from the speech of the American Minister, have been brought to a satisfactory conclusion. It exults in the solution of the question, and praises Mr. Johnson not only for the frank and conciliatory manner in which he conducted this extraordinary controversy, but also for his manly and straightforward utterances in regard to the payment of the national debt. The *Times* declares that the tone in which Mr. Johnson repudiates tampering with the national credit as a fraud, shows that the higher class of American politicians recognize the same principles of morality which are current on this side of the Atlantic.

—A dispatch from Poughkeepsie, New York, of the 6th instant, says: A doubtful report, just received here, states that Wormald and O'Baldwin fought a battle early on the morning of election day, in Putnam county. There were but few people present. Soon after the fight commenced Wormald hit O'Baldwin a terrible blow, cutting his face open from chin to ear, when O'Baldwin rallied, and soon after, by a heavy and well-directed blow, won the fight. The parties then left the field, and procuring carriages intercepted the night express down train on the Hudson River railroad, at either Garrison or Fishkill, where they took passage in a drawing-room car for New York. After the fight was over, one of the backers of O'Baldwin got into an altercation, and was dealt a terrible blow in the face by Joe Coburn. The greatest vigilance was exercised by the fighters to ward off any suspicions of the fight, and they succeeded well.

—On Friday last the New York Empire Club serenaded Mayor Hoffman, Governor elect, at the Clarendon Hotel. He returned thanks, and spoke at length upon the result of the election, and said that during the canvass he had not said an unkind word regarding Grant. If he (Grant) should adopt a Constitutional policy he would earn and have the support of the Democratic party. But if his administration was of a Radical partisan character, he would fall, never to rise again. With reference to himself, he said that as he had once proved that he was not afraid of rioters, neither was he afraid of those whose conduct tended to produce riots. In reference to the threatened contest of election, he said that while it might be possible to deprive Senators and Representatives in Congress of their seats in this way, it would be found impossible for them to deprive him of the power, he having been legally elected by the votes of the people of the State.

THE LITTLE ROCK RAILROAD.

The attention of the friends of this enterprise is called to an interesting article in our local column upon the traffic in passengers and freight over this road during the fiscal year ending on September. From what is there given merchants and business men will be able to form some idea of what will accrue to Memphis, of profit and traffic, when trains run through to Little Rock, and the money now spent in the transfer of freight across the Arkansas river is saved to the company, mayhap to be returned to shippers.

JOURNALISTIC CHANGE.

In our telegraphic columns this morning will be found the announcement of the consolidation of the *Courier* and *Journal* newspapers of Louisville, under the style of the "*Louisville Courier and Journal.*" From the known journalistic enterprise of Mr. HALDEMAN, the experience, tasté, discrimination and discretion of Mr. WATERSON as managing editor, and the great ability, as a writer, of Mr. GEORGE D. PRENTICE, who will be leading editor, the public may reasonably look for a paper in the *Courier and Journal* such as can hardly be rivalled in the Mississippi Valley. We congratulate all parties concerned, and wish the new enterprise the success we know it will merit.

EXPLANATION.

It is due to ourselves, to the public, and to the Democratic party, that we should explain our meaning, when in a brief editorial we the other day stated that the eleven negroes who are positively known to have voted the Democratic ticket in this city, cost the Democracy $110,000. We meant to have written $11,000, and should have explained that even this computation was not an exclusively money value, but included the time as well as money and exertion of members of our party. Our attention was on Friday called to the discrepancy in our figures, but in the press of business we forgot to make the correction until yesterday it was again forced upon our attention by a rather sharp reminder by our neighbor in its lengthy and exhaustive effort to explain its untenable position upon universal suffrage.

A LAST WORD.

As we do not think that anything can be gained for the Democratic party or for ourselves by the continuance of the controversy with our neighbor, the *Avalanche*, upon the subject of "negro suffrage," we propose to adjourn it, at least until the official figures can be had from the office of the Secretary of State, when we will know with *certainty* how many negroes voted for the party, and what was the color of the Democratic gains. Meantime, while we are desirous of doing full justice to the colored men who helped us, a justice dictated by the commonest gratitude, we will rest upon the arguments already offered by the APPEAL as to the impolicy of imposing upon the Democratic party the doctrine of "negro or universal suffrage." We are for a white man's government.

STEAMBOATMEN.

The St. Louis *Democrat's* commercial editor does gross injustice to steamboatmen, in an article copied from that paper into our River column this morning. He unjustly contrasts the duties of railroad conductors with those of steamboat captains, and suggests the reduction of the wages of the latter to those of the former; also those of steamboat engineers to that paid railroad engineers; a general reduction of the salaries of book-keepers and clerks to follow as a consequence. Now without any disparagement of the claims of railroad employees, we do not agree with our cotemporary, as to his comparison of the duties of river and steamboat officers. It requires a high degree of intelligence, of experience and care to navigate a steamboat and avoid the dangers that are as constantly arising on our great inland sea as upon the ocean itself. Then there is the command of a crew, and the details incident to constant intercourse with farmers and commercial men, requiring a knowledge of human nature, an alertness and foresight not often called for in a conductor. Those who have studied the varied duties of a modern steamboat captain are most loud in their praises of them, as they, by a sort of natural adaptability, accomplish the three-fold labors of captain, of host and of business man. Of the clerks it is needless, almost, to speak. Theirs is a ceaseless activity, in and out of port. What between receiving freights and passengers in port and discharging and receiving way freights along the route to the port of destination, the first, second or third clerks have little rest, certainly no leisure. Of the engineers, on first-class packets especially, it is expected that they will be something more than mere "drivers," as the men are termed who in England attend railroad engines. They should be skilled mechanics, possessed of a thorough knowledge of the capacity and running powers of the engine committed to their care, of ceaseless vigilance and characterized by great caution. If an accident happen to the craft, in most cases they are called upon to assist in the necessary repairs, and a consequent display of skill in their trade, commencing at the commonest piece of forged work, is expected. The mates, too, are men who require to be skillful in their department. They superintend the loading and unloading of the boat, see that she is properly "trimmed," and are the officers generally relied upon to determine the carrying capacity of a boat, and decide between the pecuniary desires of the owners and the amount a craft can "tote" without sinking below her "guards." With the Engineer and Conductor things are different. Their trains are made up for them, and only within half an hour of starting time are they called upon for duty; and upon reaching destination they step off, and shake off as they step off, all responsibilities. While running, their cares are great. The precious freight of human life and property entrusted to their watchful care, and the general sense of security imparted by their performance of so onerous a duty are almost beyond all price or computation of value. But they are not so continuously employed as their brethren of the river, nor do their cares wear so heavily or their dangers approach by one-half those that every twenty-four hours are braved by the men who navigate our Western rivers. With the question of wages we will not interfere. That is to be settled by the employer and the employed. But we do object to a comparison that places steamboat captains upon a plane with railroad conductors, however expert and intelligent.

EMIGRATION.

Now that the political excitement attendant upon the late political canvass has subsided, our people will have full leisure to turn their attention to subjects of equal moment, affecting the growth of our city, and the early settlement, by thrifty emigrants, of the lands of Tennessee and of the South, now waste for want of population. In Eastern and Middle Tennessee the subject of emigration, especially, has for some time been receiving the close attention of leading men, and here in Memphis, under the active influence and exertions of Mr. DONOHUE, we are happy to learn it is making a healthy progress in public esteem.

It is to emigration that we must look for the settlement of the South. The country must be divided into small farms, such as will enable the cultivators to rotate their crops, and, by diversity of production, maintain a steady commercial activity, based upon wheat, potatoes, fruits of all kinds and vegetables, corn, with cotton as the basis, as now, for eight months in the year.

From the earliest inception of the United States we have been benefitted by emigration. Whoever will take the pains to reflect upon the rapid growth of Chicago and the States now tributary to a city only second to New York, will realize to what extent they are indebted for what they have achieved of success to the large emigration steadily sustained by State aid, and the efforts of capitalists whose colossal fortunes have been amassed from the honorable industry of poor emigrants—poor emigrants who settled up their lands, increased the value of others and became, in time, the means of that wonderful accession of population and enhancement of property that remains to be rivalled by the growth of Memphis and the settlement of this portion of the Mississippi Valley. It is by the hardy emigrant that we are to realize the fulfillment of the old prophecy that this is destined to become the "garden spot of the world," and it is by the hardy emigrant of our own race and color that we are to turn back the tide of vagrancy and unthriftiness with which we are threatened on account of the negro enfranchisement.

What has been accomplished by emigration, and may be, let these figures tell: From 1820 to 1830, 244,490 persons of foreign birth came among us; from 1830 to 1840, the total of the preceding decade was more than doubled, being 552,000; from 1840 to 1850, this last total was almost trebled, the figures standing 1,558,300; from 1850 to 1860, the total was 2,707,624. We have here an augmentation of our population exceeding five millions in forty years, from emigration alone—an annual average of 126,560 for the last four decades, and 270,762 for the last one of the four. Emigration reached its highest point in 1854, when the reports showed that 427,833 aliens arrived at our ports.

The number of emigrants coming to the United States during the first three years of the war was greater than the number which arrived during the three years preceding the war, as is proved by the following figures: 1858, 123,000; 1859, 121,000; 1860, 153,000; total, 397,000. During the war, 1861, 150,000; 1862, 120,000; 1863, 182,000; total, 452,000. The estimated number for 1864 was 300,000, making 752,000 persons who were willing to seek a home with us during an unparalleled war and take the chances.

Competent statisticians put the present yearly average of emigration at 300,000 souls, and argue that, each of these being worth an average of $100 in coin when they land in the United States, they come prepared for a campaign in the forests and the wastes, and are enabled from the first to be self sustaining, and the second year begin to add to the aggregate of the wealth of the country.

A writer upon the productive capacity of the emigrants, says: "It will scarcely be questioned that those who come here are capable of equal production with the negroes of the South, and the average production of these, even under slavery, was set down at $500 per head, which would give a cash value to the country of $150,000,000 a year. Assuming an average of only 250,000 emigrants a year, from 1865 to 1870, we have as the result an addition of one billion to the cash value of the country during the current decade. That $500 per head for the able-bodied, healthy emigrants who come here is a very low estimate no one can doubt who has examined into the matter. The figures ought, really, to be placed at $1000, in which case the aggregate would become $300,000,000 a year, and $2,000,000,000 for the decade from 1860 to 1870."

As the Pacific Railroad is finished it is reasonable to expect vast accessions of population to the West, perhaps exceeding even that which now seems like a dream rather than reality. The South, too, recovered from the political strifes engendered by wicked legislation and the perverse measures of a partisan Congress, will throw open her doors and invite emigrants from all lands to settle and compete with her native children for the prizes that await every industrious effort.

Tennessee, most pleasant of all lands, by the richness of her soil, by her vast and yet virgin resources, by an extensive railroad system penetrating and to penetrate every county, and connecting her with all the States and territories of the Union—Tennessee invites, she calls for the hardy sons of toil to come from all lands, assuring them of peace, of good neighborhood, of hearty reception and the kind offices of her people. Our lands are cheap; water and railroad communication makes every village, town and city easy of access, and affords unparalleled facilities for the movements of the emigrant in quest of a favorable location.

LOUISVILLE.

LOUISVILLE, November 8.—The *Journal* and *Courier* have been consolidated. The following notice to the public explains the transaction: "To the public—As an experience of six months of the most active and best sustained competition known to the journalism of the country, convinces us that neither the times nor situation justifies the publication of two rival Democratic newspapers in Louisville, on so large a plan as the Louisville *Courier* and the Louisville *Journal*, and rather than reduce the character of either for enterprise of the first class, and in order to furnish a newspaper teaching in all points the exacting demands of the public welfare, we have arranged a combination of both, under the style and title of the *Louisville Courier and Journal*. The combination of two such presses enables us to produce a journal superior in every respect to its predecessors, distancing at once all competition, and assuming a circulation, influence and value enjoyed by no paper out of New York. Under this arrangement, Mr. W. N. Haldeman takes the business, and Mr. Henry Waterson the editorial management, with a full and complete corps of writers, reporters and correspondents, including George D. Prentice, Esq.

(Signed) W. N. HALDEMAN.
HENRY WATERSON.

WASHINGTON.

WASHINGTON, November 8.—General Grant arrived here last night, on special train, by way of Harrisburg, accompanied by Generals Smith, Comstock, Badean, and J. Russell Jones, and quietly proceeded to his home in the northern part of the city.

This morning he attended Dr. Sunderland's church.

Senator Wade arrived last night, and Speaker Colfax will reach Washington to-morrow, and they will, in accordance with Congressional concurrent resolution, adjourn both Houses on Tuesday till the first Monday in December.

The Treasury Department is informed that at most ports of delivery on Western waters, other than those on the frontier, great diversity of practice prevails in collecting fees from steamboats and other vessels, and also at most of said ports exorbitant fees are collected, for which officers of the custom house have no warrant in law. In order, therefore, to correct such abuses, a list of fees has been prepared, and will soon be promulgated for the benefit of all concerned.

HALIFAX, November 8.—The steamship Marmion, from Savannah 4th ult., at 8:10 p.m., when near Scall Land Light, was run into by the steamship Gen. Meade, striking her amidship and cutting her down below the water line. The Meade took off part of her crew and passengers and brought them to the city, the Captain and remainder of the crew remaining by the ship. The steamer Lackawanna has been sent to her assistance. The Gen. Meade was so much injured that she was run ashore on Jersey Flats, to prevent sinking.

GEORGIA.

AUGUSTA, November 8.—It is estimated that the Democratic majority in this State is 40,000.

PHILADELPHIA.

PHILADALPHIA, November 8.—It is now believed that Grant's majority in this State will reach 40,000.

MADISON, INDIANA.

MADISON, November 8.—Four men and a negro attempted to cross the river from Kentucky, at this place, last night, in a leaky skiff. When within about fifty yards of the Indiana shore the boat filled with water and sunk. One of the white men named Ed. Broad and the negro were drowned. The other three were saved by swimming ashore.

MEMPHIS APPEAL.

Office---No. 13 Jefferson Street.

PRICE OF THE APPEAL REDUCED.

Hereafter we will furnish, to regular subscribers, the DAILY APPEAL at $10 per annum, and the mammoth WEEKLY APPEAL (the oldest paper in the Southwest) at $2 50 per annum. Mindful of the demand for cheap newspapers, and determined that the public of this region shall have no excuse for an exclusive patronizing of journals published in other cities, we make a reduction that renders our daily and weekly issues as cheap as any papers published in the country.

Of the WEEKLY APPEAL we can confidently assert that at $2 50 a year it is the cheapest paper published in the North as well as South. In size the sheet is 33 by 52 inches, comprising 40 columns of reading matter, embracing literary selections, poetry, all the news of the day, telegraphic and local reports, and commercial and river reports. We challenge the press of the United States to produce a cheaper paper at this price; and yet those subscribing in clubs of two or more may enjoy it at $2 per annum. Now is the time to subscribe. Those subscribers whose terms of subscription have expired should renew at once. Postmasters acting as agents will be allowed the usual discount of 10 per cent. on single subscriptions. Send in your names gentlemen.

THE MACKERELS broke into the stand of a fruit and candy vender, situated on the corner of Jefferson and Front sts., yesterday, and stole four or five boxes of cigars, several jars of candy, and other plunder.

THE POLICE made a raid on the houses of ill-fame in the Second District yesterday, and arrested two "bosses," named Mollie Smith and Nell Gwynne, and four boarders of the former and seven of the latter. They had not paid their "tribute" to Cæsar.

WATCH THIEF.—John Smith (uncommon name) stole a watch and chain on board the steamer Des Arc yesterday morning, from a gentleman named Taylor. He was arrested and carried to the First District Station, and on searching him the missing property was recovered. He will have a hearing to-day.

FRESH OYSTERS.—J. D. Edwards & Co., No. 278 Second street, are daily receiving fresh oysters from Norfolk. They will sell oysters in any quantity from a pint to a barrel. THE Clarksville trestle was finished on Saturday, and trains commenced running over the road again yesterday. We learn that the ferry at that point has been "busted up," the railroad company having built a causeway on the south side of the new trestle to enable them to transfer passengers without having to pay the outrageous ferriage hitherto charged.

THE DESOTO BOARDING AND LIVERY STABLE.—Mr. Joe Seligman, the most enterprising livery stable keeper in the city of Memphis, and who turns out one of the very finest "rigs" to be seen on the streets, has just purchased the large and commodious DeSoto stable, No. 55 Union street, which he has fitted up in first class style as a livery and boarding stable. The buggy room is separate and fire-proof. Horses will be boarded cheaper than elsewhere. His old stable, corner Union and Third, will be reserved as a sale stable. 1w

THE LITTLE ROCK RAILROAD.

Earnings for the Year.

At this late date when argument in favor of this road has been exhausted, it would be justly considered a work of supererogation for us to offer anything by way of inducing the favor of the public for it. But we cannot withhold some figures that have reached us in regard to its business for the year ending with September, offering them only as a gratifying evidence of the capacity of the road, under very adverse circumstances, and as a fair justification, were such needed, of the labor and means that have been expended upon it. The following are the figures of which we spoke:

During the year ending September there have been imported into Arkansas over the Western Division, (47 miles), via Devall's Bluff, 558,661 pounds of bacon, 1560 sacks of corn, 4396 sacks of oats, 1240 bushels of meal, 810 barrels of pork, 3664 barrels of potatoes and onions, 293 bbls. of molasses, 418 bbls. oil, 8488 bbls. flour, 1587 bbls. lime, 2601 bbls. liquor, 20,000 bushels of coal, and 6,892,877 lbs. of miscellaneous freight, dry goods, groceries, etc., etc. The exports from Arkansas by this line have been, during the same period of time, 8212 bales of cotton, 632 376 lbs. miscellaneous freight, principally oilstones and hides. 4228 bales of hay, cut on line of road, were also transported over it to Little Rock during the year, and during this period over 9000 passengers were carried over the road.

The statistics and books show that over fifty per cent. of the earnings are profit.

If this exhibit is not a cheering one, we would like to know what would suit the officers of this road.

PERSONAL.

We had the pleasure of a visit last night from Col. Mose Parish of the Bolivar *Bulletin*. He remains in the city a day or two, and will call on our merchants who will, we hope, respond liberally to his solicitations for advertisements.

Among the late arrivals at the Commercial Hotel, we notice that of that whole-souled gentleman, W. P. Tindall, Esq., of Okolona, Mississippi. The colonel is in excellent spirits, and his advent in our midst will be hailed with pleasure by his numerous friends. We wish him a pleasant and profitable stay.

We learned yesterday of the business change of Mr. John H. Taylor, late of Walker Bros. & Co. He commences to-morrow morning with the well known dry goods house of Howell, Wood & Co., Southern Palace, 332 Main street. This elegant gentleman and reliable salesman will be pleased to meet and wait upon his many friends and customers. His capacity as a first class salesman is too well known to receive commendation from our hands. Mr. Taylor promises that the above firm will have at all times a large and well selected stock of staple and fancy dry goods. Our country friends will do well to give Mr. Taylor a call before purchasing elsewhere. no8-3t

THE cheapest clothing in the city can be found at RICE & ENGEL'S.

IT is strange to see with what carelessness some invalids attend to their health. They will procure a box of Plantation Bitters, which ought to be used up in a month or six weeks, and upon inquiry it is found that they have used only two or three bottles. Some days they have used it according to directions, and others have not touched it. The whole trial has been irregular, and of course a less favorable result has come from their use. If it be true that "what is worth doing at all is worth doing well," how emphatically is it true in matters relating to the health. A few bottles of Plantation Bitters have often wrought wonders, while in other instances disease has only been subdued after weeks of resistance.

MUD AND DUST.

How to get Rid of Both--A suggestion to the Board of Aldermen.

Yesterday was a most delightful day, considering the season of the year—when we are taught traditionally to look for "weeping skies and wailing winds, and meadows brown and sear." The winds we had, but they did not "wail" much, although they did raise considerable of a dust—an abomination that even the Nicholson, with all its virtues, is unable to abate. Indeed the Nicholson only seems to aggravate the nuisance, and there is no earthly reason why it should. On the contrary, it ought to free us from every semblance of dirt, dust and mud. In the cities and towns of Germany, and portions of France, the streets are paved with common cobble stones, and although some of them are as much, and even more traveled than our own, dust is unknown there, and that at no cost of "watering," or dues to the street commissioners. It is made the duty of every householder to have the street in front of his dwelling, or place of business, cleanly swept every morning. This operation takes the stout, hearty "Dienst-Maedschen" five minutes, maybe, daily, and by this judicious expenditure of a few moments' labor, dust is entirely conquered and overcome.

Now, why cannot our Board of Aldermen, who are all gentlemen of the "Party of Progress," pass an ordinance requiring every householder along our paved streets to do the same way? Let the Street Commissioners have them thoroughly cleaned and swept, and the dirt carted off once, and then make the property-holders keep them clean, detailing from the corporation force three or four, or a half dozen carts, to carry off the dust heaps daily. This, even if an extra tax of a few cents were imposed, would not cost so much as the street watering now does, and would also avoid the unpleasant mud, and dampness under foot, engendered by this process.

What do you think of it, City Fathers?

CUTTING THE TELEGRAPH WIRES.

Why it was done--Development of the Plot to Liberate Shepherd, the Russelville Bank Robber.

We mentioned several days ago the fact that on Monday night last all the telegraph wires leading to and from Nashville had been cut by some unknown person or persons. The affair at the time seemed enveloped in mystery, but the following, taken from the Nashville *Banner* of Saturday, explains the affair: "The plot for the liberation of Sheppard, the Russellville bank robber, concerning which we quoted from the Louisville *Courier* of Thursday, in connection with the arrest of two supposed conspirators, turns out to be a scheme much more deeply laid than was at first supposed. The train which bore Sheppard to Russellville on Thursday, passed the trains which took up Nashville papers containing the startling announcement that on Monday night the telegraph wires on the Louisville and Nashville Railroad had been cut near Madison Station, eight miles from Nashville. The Memphis lines two miles out, the Johnsonville wires six miles out, and the Chattanooga wires two miles out, had also been cut, and no cause whatever was assigned for the mysterious work, newspapers and telegraph men being unable to account in any way for the general raid on the lines. On Monday morning the Sheriff of Logan county left Russellville for Louisville, for the purpose of taking Sheppard out of jail for trial at that place. There can be no doubt that the friends of the robber, who designed rescuing him, were well posted in regard to the Sheriff's movements, and expecting him to return with Sheppard on Monday night, resolved to rescue him and in order to make the movement as successful as it was daring, the cutting of the telegraph wires became necessary, so as to shut off all communication with Louisville, Nashville and other points, giving Sheppard ample time to make off and conceal himself. To complete the scheme, the wires should also have been cut near Louisville, but through some miscalculation, this was not done, and the party who were expecting to attack the train got word that Sheppard would not leave until Monday night. The unexpected departure of Sheppard Tuesday morning, and the arrest of the two supposed conspirators by the detectives, frustrated the whole plan, and the robber was landed safely in Russelville on Thursday, where his trial will doubtless be proceeded with.

QUEER PLACE FOR STOLEN PROPERTY.—A Mr. Joe Chafflin, in coming to town on Saturday evening, on the Mississippi and Tennessee road, occupied a seat with a "gentleman" named Frank Gatto, with whom he soon fell into a friendly chat. Mr. Chafflin in some manner betrayed to Mr. Gatto that he was coming to town with considerable greenbacks, and when they arrived in the city Mr. Gatto determined to put up at the same hotel with him—the Southern. By a strange "coincidence" the two gentlemen were put into the same room at the hotel, and yesterday morning Mr. Chafflin woke up *minus* his greenbacks. He immediately called a policeman and had his room-mate arrested, and on searching him the missing greenbacks were found, snugly tied up in his shirt-tail.

ATTENTION ALL LOVERS OF GOOD THINGS.—The Overton Saloon, 166 Main street, will set a grand lunch this day at 10 o'clock, to continue for the season. The proprietor, J. M. Cannon, will do the honors of the table. The well-known and distinguished bar-keeper, "Sporting Dick," will preside at the bar. Delicious wines, fine cigars and pure liquors always on hand. The courteous proprietor and barkeeper invite all their friends to partake of their delicious oyster soup. Give them a call.

BACK INTO THE FRYING PAN.—The Louisville *Journal*, of yesterday, says that a cavalcade passed through that city Thursday afternoon, en route from Indiana to Tennessee, their former home. They were of the class yclept "refugees," and had sought an asylum in the Hoosier State during the troubles in Tennessee. They are returning to Brownlow's dominions, with their bag and baggage, raw-boned horses, and dogs and children to match, in the belief that the war is over there. It is melancholy to contemplate their condition when they realize that Tennessee is in even a worse turmoil than when they left it.

THE WEBSTER BLOCK is getting up a name for deeds of blood and violence. Only last week a gentleman was enticed into the stairway, garroted and robbed; and again, last night, before nine o'clock, a man named Daniel Egan, was, in like manner, inveigled into its precincts, set upon by the inmates, and after being knocked senseless, was robbed of a watch and chain and some money. Fortunately for him, some of the First District police were near at hand, and after rescuing him, arrested an Italian, named Joseph Martini, and his wife, and all the other inmates of the house (cyprians), to the number of eleven. They will have a hearing before Commissioner Richards this morning.

THE RACES.—To-day, at 2 o'clock, the Fall races begin over the Memphis Racing Association Course. We have already given our readers a list of the stables and horses that are here to take part in the sport. The track is in excellent condition, and the weather beautiful, so we may look for a splendid time. In another column may be found the entries, etc., for the day.

FREE LUNCH daily at Raggio's, 15 Jefferson street.

Attention, Country and Retail Merchants. Large stock Calicoes, Bleached and Brown Domestics, Linseys, Kerseys, Osnaburgs Flannels, Boots and Shoes and Clothing, being sold out at extra bargains. J. H. Loewenstine & Bros, No. 231 Main street.

AN IMPROVEMENT ON STREET LETTER BOXES.—There is on exhibition at the Postoffice Department at Washington, on improved street letter box, the patent of Mr. J. W. Smith, which has been manufactured by Mr. C. Schneider, of that city, and which meets the want, not only in this particular, but in others. The opening is eight by four inches—big enough to receive the largest envelopes and newspapers. This opening is covered by a lid so contrived that when it is raised a cylinder is presented. The letter newspaper is then deposited, and falls on the bottom of this cylinder. When the lid is shut down again, the cylinder revolves until the opening is downward, when its contents fall into the letter box. Of course, whenever the lid is raised the turning of the cylinder cuts off any communication with the receptacle below, so that while packages can be deposited, none can be abstracted. The letter-box bears upon its front a dial or clock face, with hands. The carrier, when removing the contents of the box, sets the hands to the hour when he will next call for the mail, and thus every one can see at what hour the letters or papers he deposits will be called for.

WHEATON NURSERY

Established in 1840.

A LARGE variety of Ornamental Trees, Shrubbery, Evergreens and the finest varieties of Fruit Trees; also, a full assortment of Hot House Plants and Flowers, and everything usually found in a first class Nursery, which I offer for sale at GREATLY REDUCED PRICES.

The stock on hand having accumulated for the last few years, it becomes necessary, on account of a want of room, to dispose of the surplus, which I will offer at greatly reduced prices, and cheaper than any Nursery north or south of this point can possibly furnish them.

They are the selections of the late Dr. Wheaton, whose long experience is the best guarantee of their being not only what they are represented to be, but as being peculiarly adapted to the Southern climate—a market for which he devoted his especial study.

In addition to the above, I have a very large stock of Magnolias, which I can offer at greatly reduced prices, and which will be carefully packed for transportation by an experienced gardener.

Catalogues, with prices and any information wanted, will be sent on application to

FINANCE AND TRADE.

OFFICE OF THE DAILY APPEAL, }
MEMPHIS, November 7, 1868. }

FINANCE.

The New York money market early yesterday was panicky, as was seen by our dispatches this morning, but we learn from private dispatches received to-day that the excitement in Wall street has very generally subsided, and that money is easy enough for all legitimate purposes. The excitement there, however, has not affected our market in the least, but it may result in an addition of ½c upon the rates of discount on all cotton bills upon points outside of New York. The offerings of exchange to-day were large, and were taken as usual from customers at ruling rates, while no good outside bills were refused. With liberal receipts of currency and a good demand for exchange coming from all branches of trade, we report the money market comparatively easy.

Bonds and Stocks are quiet. There is some demand for City Bonds in a small way, and sales of $14,000 "paving" to a broker occurred at 52½c. These bonds are not as much sought after as what is termed the "plain" bonds, and generally sell at 1@1½c less. We know of none of the latter on the market.

City Scrip is quiet. There is only a small demand at present from tax payers. Dealers offer 78@80c, and sell at 81@85c, as to amount.

County Warrants are in active demand at 65c from dealers. It will be remembered that the Legislature authorized the County Commissioners to issue $300,000 in county bonds for the ostensible purpose of absorbing all outstanding warrants. These bonds were to bear interest at 8 per cent., but this illegal interest prevented their negotiation and the scheme fell through. It is now said that Barbour Lewis is making an effort to get a bill passed as soon as the Legislature convenes, authorizing the issue of $400,000 in bonds, bearing 6 per cent. interest. For what purpose these bonds are required is left to conjecture—not certainly to absorb warrants—for it is well known there are not warrants enough extant to pay the county taxes now due, and which must be paid by the 1st of January next. By that time all will be absorbed, without, of course, there is some extraordinary issue before that time, and for which no reason can be assigned.

Police and School Scrip are firm at previous quotations.

Gold opened in New York to-day at 134½, went up to 134¾, fell to 133¾ and closed as it opened. There were no offerings in this market. Buying nominally at New York rates. Selling at 136.

We are happy to be able to announce that arrangements are being perfected by a prominent commercial citizen of Memphis, with Duncan, Sherman & Co., of New York, whereby there will be a large accession to the banking capital of our city. This is only the first movement among many of a similar character that we hope ere long to be able to communicate to our readers.

COTTON.

The opening Liverpool dispatch quoted that market quiet but steady; sales, 12,000 bales; Uplands, 11½d; Orleans, 11¾d, and closed unchanged.

In New Orleans, at the opening, the market was irregular but not lower; Middlings, 23¾c, and at 2 p.m. the demand was moderate and prices firm; sales, 2000 bales.

The New York market opened quiet but firm; Middlings, 25½c. At noon the demand was moderate and prices firm; Low Middlings, 24½c; Uplands, 25½c; Orleans, 25¾c; Good Middlings, 26½c. At 1 p.m. it was dull and nominal; Uplands, 25@25½c. At 2 p.m. it was dull and nominal; Low Middlings, 24½c; Middlings, 25½c, and closed quiet and weak at unchanged quotations; sales, 2000 bales; week's sales, 20,000; week's receipts, 7000; gross receipts, 12,000; exports since September 1st, 40,000; stock, 20,000; receipts at all United States ports, 72,000.

Our market has been moderately active, but sales were restricted by the meager stock on hand unsold, which hardly exceeds 2000 bales. There was less doing towards the close, but prices were much the same during the entire day. Fine grades are in better demand than low ones. The money panic in New York has also affected sales to some extent. Many orders held here were suspended for the present, or until the excitement is allayed in the East. Several large lists were sold during the day, however, upon a basis of 22½c for Middlings. We quote as follows:

Ordinary	20½@21
Good Ordinary	21½@—
Low Middlings	22 @22¼
Middlings	22½@—
Strict Middlings	23 @23¼
Good Middlings	24 @—

Prices of other things are unchanged.

The well-known New York firms of Dean, McGinness & Co., J. Scheffer & Nephews, are represented in this city by Col. J. A. Bridgland, who, it will be seen by a card in another column, is prepared to make liberal advances upon all cotton shipped to these reliable and responsible houses. Those of our merchants and planters who wish to avail themselves of No. 1 New York business houses should not overlook the advantages offered by Col. Bridgland.

RIVER MATTERS.

WEATHER AND RIVERS.

MEMPHIS, November 9.—The weather is clear, but a heavy wind blew in the morning, and our streets were covered with dust. Great clouds of it filled the air, and at times even the river could not be seen from the bluff. We have no change to report in the river here. The Arkansas is low and falling, with thirty inches to Pine Bluff. White river is falling, but has enough water for the packets. The Ohio is falling at Pittsburg, but is rising slowly at Cincinnati, Louisville and Evansville, and by this time the river at Cairo should be affected slightly by the late swell from above.

MISCELLANEOUS.

The towboat Kellogg passed up yesterday at daylight.

An unknown stern-wheeler, with a barge in tow, passed down last night.

The Belle Memphis, Capt. Crane, will leave to-day at 4 p.m. for Cairo and St. Louis. She is an elegant passenger packet, and connects with the trains North and East. Billy Blenker is her clerk.

The Lizzie Gill, Capt. O'Neil, will pass down to-day for Vicksburg and New Orleans.

The elegant passenger packet Magenta will be in port to-day, and leaves on Wednesday for New Orleans. Frank Hicks is master, and Messrs. Brooks and Sullivan are her clerks.

The Sam Hale, Capt. Walker, leaves to-day for Louisville and Cincinnati. Her agents have a full load engaged for her, and she will go through on time.

The Agnes, Capt. Scott, will back out to day for Louisville.

The Linton leaves to-day at 5 p.m. for Cairo and Louisville. Les Ware is her master.

The Natoma, Capt. Lee, is the regular Friar's Point packet to-morrow. She leaves at 5 p.m. Billy Fields is her chief clerk, and he has around him such pleasant assistants as sterling Whitehead and Stack Lee.

M. F. Pyne & Co. will slaughter several of the large beeves to-day which were consigned to them last week. They range from 1500 to 2000 pounds each.

The splendid new ferry boat for the Memphis and Mound City trade made her first trip yesterday, and will without doubt be one of the fastest boats ever seen in these parts. Capt. Mark Cheek has built her expressly for the trade, and has spared no expense to make her a first-class ferry boat, which she is in every respect. Several gentlemen of our city went up on her yesterday, and are delighted, not only with the way she handles and her speed, but also with her internal arrangements, which are perfect.

The Agnes, Capt. Sebree, leaves for St. Francis river on Tuesday. Mr. Coffin is her clerk.

The United States mail packet Liberty, Capt. Rice, with Milt Harry in the office, backs out to-morrow for White river, making connection with the railroad at Devall's Bluff.

The light and handsome Ozark, with Capt. Blasdell on the roof, will get away to-day for Pine Bluff and all way points on the Arkansas, connecting with packets for Little Rock and Fort Smith. She carries the United States mail, and is prompt as a chronometer. Mr. Outlaw is her chief clerk.

The reliable independent steamer Des Arc, Capt. John Elliott, gets away today at 5 p.m. for Augusta and way points on White river. She makes all connections, and is a fine packet. Joe Miller and Matt Glass fill her office creditably, and are popular officers.

We are indebted to Mr. L. E. Curtis, of the Telegraph office, for the following, which will allay all fears about the safety of the Mississippi: "Vicksburg, Miss., November 8, 1868. To Curtis: Mississippi passed down at twelve o'clock last night, O. K. Bussell."

The Guidon has not been sold so far as heard from.

Capt. J. B. Davis is in St. Louis.

W. Jay Johnson, formerly of this city, is now keeping books in a Louisville house.

The Silver Cloud has been repaired and is again afloat at Pittsburg.

The Robert E. Lee went to Donaldsonville, a distance of seventy-eight miles in four hours and fifty minutes, which is the quickest time made by any steamer since the days of the renowned Princess.

We take the following ridiculous article from the St. Louis *Democrat*. The writer of so much bosh was certainly ignorant of the subject upon which he attempted to write, or he would know that railroads do not keep their tariffs at "a low and unvarying rate," but frequently "run them down to zero one day and up to boiling hight the next to crush out a rival." The great misfortune with steamboats is that they at all times since the war have carried freights at zero, and therefore far below a living rate. We know of no such incumbrances around steamboat lines now-a days as "high-toned, expensive, and more or less incompetent attaches." Steamboat lines have long ago cut down salaries until many river men have sought employment ashore where they could get a better recompense for their labor, and we are safe in saying that with the loss of time for want of water, business and the thousand other delays which follow a life upon the river, they are worse paid than any other class of our community. The comparison between a railroad conductor and a steamboat captain is too silly to comment upon, and shows the writer to be about as intelligent as the down-Easter who, standing on the roof of a steamer, and looking at the pilot, heard some one remark that he received $250 per month. The Yank exclaimed, 'Jerusha, I can git lots o' fellers down to hum who will run that darned thing around a heap faster than he does at $25 a month." While the water varies in our great river so will freight tariffs, and such articles as the following only indicate a want of common sense on the part of the editors of the St. Louis *Democrat*. For its absurdity alone we publish it:

"The steamboat lines have added 15c per bbl. more to the freight on flour, potatoes, onions, etc., to New Orleans, and advanced other freights correspondingly. The barge line of course concurs, and thus shippers are forced to the wall again. We happen to know that this season will see the end of all such disagreeable fluctuations. Next spring abundant daily shipping facilities will be afforded our merchants at a low and an unvarying rate. The rate will be fixed high enough in high water to permit its continuance through the low water season, and the rate so fixed will be low enough all the time to compete with anything that floats. Our merchants have got heartily sick of this steamboat way of running freights down to zero one day to crush out a rival, and then up to boiling highth as soon as the rival is crushed, and they have about made up their minds to make such arrangements next season as will insure a perfectly steady and reliable rate of transportation. It is not necessary that they should either buy or build a barge line, or a steamboat line, unless they prefer to do it that way. They can make a very close estimate of the entire amount of freight they, as merchants, will ship to New Orleans in the course of the year, and by association they can agree with a certain line of boats to take that amount at a given rate—said rate to be put at as low a figure as possible. Such a contract with the shippers would make a sure thing for the boats making it for the year's business, and, in view of this, they could proceed to cut down their expenses to a rate exactly commensurate with the demands of their contract. It has become absolutely necessary that the carrying trade of the Mississippi river should be thoroughly systematized, and pruned of its "high-toned," expensive and more or less incompetent attachees. The commerce of the country demands cheap carriage, faithful, economical and competent servants. Is there any need that higher salaries should be paid to men in the employ of steamboats than to those in the employ of a railroad? The conductor's salary might justly be made the measure of a steamboat captain's salary. The engineer's salary on a locomotive might justly be made the basis of the steamboat engineer's salary, and so on. Why need the commerce of the rivers be taxed to pay three times the salaries that the commerce of the railroad pays? Is it answered that steamboat captains will not hire themselves at $100 per month? We reply, then let them do something else—there are plenty who will take their places for that money. A railroad conductor does well who receives $100 per month, and he is not boarded and lodged at the company's expense either. We hope all these things will be thought of in organizing freight rates for the next season."

WOLFE'S Schiedam Schnapps.

THE above Medicinal Beverage is manufactured by the proprietor, at his distillery, in Schiedam, Holland, expressly for medicinal use.

It is now some twenty years since the proprietor first introduced it to the American public, and during that time he has received over three thousand letters from physicians, indorsing it as the purest liquor they have ever used in their practice.

It is made from barley of the finest quality, selected with great care from the products of the most celebrated grain-growing districts, is flavored with the essence of the aromatic juniper-berry of Italy, and is rectified by a peculiar process, which expels from the spirit every acrid particle.

As a means of preventing and correcting the disagreeable and often dangerous effect produced upon the stomach and bowels by a change of water—a visitation to which travelers, new settlers, and all unacclimated persons in the West, the South, and Southwest are peculiarly liable—the SCHIEDAM AROMATIC SCHNAPPS will be found absolutely infallible; while in cases of dropsy, gravel, obstructions of the kidneys, diseases of the bladder, stricture, dyspepsia and general debility, it is recommended most emphatically by the most distinguished members of the medical profession.

It is put up in quart and pint bottles, in cases, with the name of the undersigned on the bottle and cork, and a fac-simile of his signature on the label. For sale by all respectable druggists and country merchants.
